

I am an XM Radio subscriber. I've been so for a little over two months now and I can tell you it's the best thing I've ever heard in the world of radio. I listen to it every single day on my way to and from work and often at home just to unwind. The thought that certain programing might be canceled on XM Radio is distressing to me because it suggests a crackdown on 1st Amerndment rights and, on a lighter note, it prevents me from accessing the news and information I deem necessary and important in my life. Please do not put any bans on XM Radio or any other satellite radio service for that matter. Thank you very much!

Best regards,
Charlie Young
